

Institutional Partnership - Homebound and Virtual Tutoring

What We Offer

Virtual Tutoring & Homebound Instruction

Einstein Tutoring instruction helps students stay on track with flexible, personalized instruction. Whether a child is on a medical, emotional, or disciplinary leave, they still need to continue their school work—and they are better positioned to return to school if they are up to date with their assignments. Students who are out for extended medical absences face significant hurdles to keep up with schoolwork during treatment and recovery.

Specialty Treatment Facilities

We offer flexible educational programs that compliment your population's unique needs.

School-age patients & clients that are receiving treatment at your program face a number of challenges, and no single situation is the same as the last. This is also true for their educational needs. Students in these settings need individual attention and they want to feel some amount of control. They need more than a teacher—they need someone to provide normalcy and engagement. Our academics programs are available In-Home/Virtual and in-person (in certain geographies).

Utilizing In-Home/Virtual Classrooms for Suspended Students: Benefits and Advantages

As education evolves, the concept of In-Home/Virtual classrooms is proving to be a powerful tool in keeping students on track while adjusting to their unique circumstances. This approach is particularly beneficial for suspended students, as it not only maintains the flow of education but also contributes to a positive learning environment. This article will delve into the key benefits of In-Home/Virtual learning for students facing disciplinary or medical leaves while highlighting the innovative programs, like Einstein Virtual Tutoring and Homebound Instruction, that cater to their specific needs.

In compliance with Massachusetts Regulation 603 CMR 28.03(3)(c):

- ▶ Assistance for students on Individualized Education Programs (IEPs).
- ▶ Virtual and in-home tutoring options available.
- ▶ Educational services provided in-home or hospital settings.
- ▶ Special needs support for eligible students.

Keys to Success: Learning During Hardships

In-Home/Virtual classrooms offer an unprecedented opportunity for students to stay connected with their education, even when traditional avenues are not accessible. The following benefits illustrate the impact of this approach:

▶ Academic Continuity

Students need not fall behind if they're suspended from regular classes. In-Home/Virtual classrooms ensure they can keep up with their lessons with minimal interruption, which is crucial for maintaining academic progress and morale.

▶ Safety and Security

Amid growing concerns for student safety, especially in cases where disciplinary action is necessary, In-Home/Virtual learning provides a protective environment. Keeping students at home but engaged in learning eliminates the potential for harmful situations amid a carefully controlled setting.

▶ Focused Environment

The peer restriction that In-Home/Virtual classrooms provide offers a controlled environment that's conducive to academic success. By reducing the distractions and influences that may have led to the suspension, students can concentrate on their studies in an undisturbed, supportive space.

Meet the Educators: Approach to In-Home/Virtual Instruction

Einstein Tutoring LLC programs are designed specifically to support the education of suspended students, offering a blend of flexibility and structure that empowers them to stay on course. Here are the standout features of our approach:

▶ Highly Tailored Instruction

Each student receives personalized attention from certified educators who can adapt their teaching methods to the individual student's needs, pace, and learning style. This one-on-one support can significantly enhance the student's ability to grasp complex concepts and tackle their coursework effectively.

▶ Parallel Curriculum

Utilizing the same curriculum as the student's peers fosters a sense of continuity and inclusion, which is essential for their academic confidence. Despite their physical absence, students feel connected and in-line with the progress of their classmates.

▶ The Road Back to Traditional Learning: Setting Students Up for Success

Beyond the immediate benefits of staying on track with schoolwork, In-Home/Virtual classrooms play a critical role in easing the return to the traditional learning setting. By maintaining their educational momentum, suspended students are better prepared for a smooth transition back into the classroom environment.

▶ Incorporating In-Home/Virtual Classrooms as a Standard Support

The use of In-Home/Virtual classrooms for suspended students should not be seen as a temporary solution, but rather a standard of support available for all students from your district. By ensuring continued education, safety, and a focused path back to school, Einstein Tutoring LLC In-Home/Virtual tutoring programs offer significant advantages to schools and students alike.

In-Home and Virtual Tutoring

Whether a child is on a medical, emotional, or disciplinary leave, they still need to continue their school work—and they are better positioned to return to school if they are up to date with their assignments. Students who are out for extended medical absences face significant hurdles to keep up with schoolwork during treatment and recovery.

Einstein Tutoring LLC provides students customized instruction from highly qualified instructors—we offer options for both in-home and virtual settings for maximum flexibility.

Students follow the same curriculum as their classmates and receive personalized support from their Einstein Teacher.

With Einstein Tutoring LLC, students can focus on recovery and stay on track with schoolwork—leading to a smooth reintroduction to the classroom when they're ready.

"We have tutors that can speak multiple languages and can tutor in English, Portuguese, Spanish and Chinese"

How to Get Started

How to get started with Tutoring

Email us at Support@et1on1.com

or

Call us at **949-355-2193**

If you are a school district.

- ✓ Our staff will match the right tutor to the student's unique academic needs.
- ✓ The team at Einstein Tutoring LLC will follow up regarding the next steps for scheduling.
- ✓ The tutor will then coordinate instruction to take place at a time that suits the family/student.
